EMERGENCY
ULTRASOUND COURSE**

AIEUC-2015

CERTIFIED BY GEORGE WASHINGTON UNIVERSITY - USA

18th, 19th & 20th March 2015 at AsterMedcity, Kochi.

Hands on training

Point of care ultrasound is a rapid, accurate, repeatable, non invasive imaging without the risk of radiation, that aids the clinical examination, bed side diagnosis and resuscitation. It has evolved from a new technology and become a vital organ of Emergency departments across the globe. Life threatening conditions can be identified without leaving the resuscitation area within a matter of seconds.

Take a quick look inside and extend your vision beyond your fingertips. Empower the visual stethoscope.

Here's a golden opportunity to get trained in Emergency ultrasound imaging by International experts and improve your patient care.
